

Projectors

SHARP X171Q PROFESSIONAL 4K+ 1DLP LASER PROJECTOR

Projecting the sharpest detail and most life-like colours, the 4K+ X171Q laser phosphor projector features new HEP DMD technology for enhanced contrast and remarkably efficient performance.

- Finest detail – crisp 4K+ resolution achieves perfect image clarity for easy viewing of very detailed content.
- Superb image quality – producing vivid reds, the RB laser light source delivers excellent colour performance, projecting images that are remarkable.
- IP6X rated optical engine – protects against dust ingress for long lasting picture quality.
- Designed for efficiency – the small footprint defies the high brightness delivery at low energy consumption.

Specifications

Display Module Data

Aspect Ratio	16:10:00
Contrast Ratio	3000000:1

Power Supply and Operating Environment

Operating Voltage (ACV)	100-240
Frequency (Hz)	50-60
Via AC Adapter	True
Operating Voltage (DCV)	100-240
Storage Temperature (°C)	-10 - 60
Storage Humidity Min [%]	0
Storage Humidity Max [%]	90

Additional Features

Safety and Ergonomics	RoHS, CE, ErP
-----------------------	---------------

Projectors

1-Chip DLP(TI)	True
Weight (kg)	28
Zoom-Lens (Motorised)	True
Lens Shift (H)	True
Lens Shift (V)	True
Keystone (manual)	True

Key Specifications

Local Dimming	True
Operating Time	24/7

Accessories

Shipping Content	Power Cable, Remote Control, Setup Guide
------------------	--

Electrical

Power Supply	100-240 V
--------------	-----------

Environmental Conditions

Operating Humidity (min) [%]	0
Operating Humidity (max) [%]	80

Green Features

Ecological Standards	ErP compliant
Ecological Materials	Downloadable manuals
